

Supporting Health and Comfort at Pinawa Hospital Through Community Generosity

At Interlake Eastern Health Foundation, we're grateful for the incredible support of our community partners who help us enhance care and comfort for patients and their loved ones. Today, we want to extend our heartfelt thanks to Mrs. Lucci's for their generous donation of a reclining visitor sleeper chair and new ergonomic chairs for our nursing station.

Thanks to this donation, family members can now spend more time by their loved ones' bedsides in greater comfort, offering the reassurance and support that only a loved one can provide. The reclining sleeper chair also allows for better rest and sleep, helping families stay strong—both physically and emotionally—through challenging times.

The new ergonomic chairs at the nursing station are a much-appreciated gift to our hardworking nurses. These chairs not only enhance comfort but also support better posture, helping our nurses focus on delivering the exceptional care they are known for.

This donation exemplifies the full circle of community support that makes initiatives like this possible. As Karen Kost, Executive Director of Mrs. Lucci's, so beautifully puts it: *"We are ONLY able to make these donations as a result of the profits made in our second-hand stores. And the only way that we make money in our stores is because of the wonderful support that we receive from the generous people of our community every day."*

By donating goods, shopping at Mrs. Lucci's, and volunteering, community members play a direct role in making an impact. Your support fuels a cycle of giving that improves lives, from providing resources for local programs to enhancing healthcare facilities like ours.

Since its establishment in August 1998, Mrs. Lucci's has been a cornerstone of Lac du Bonnet, responding to unmet needs and providing valuable programs and services. This donation is a testament to their dedication to strengthening our community.

Together, we're improving healthcare experiences for patients, families, and care providers. Thank you, Mrs. Lucci's, and to everyone who supports their mission—you are making a real difference in the lives of so many!
